

Winning Look!

Returning home and looking good in their new team 'strip', jubilant Feckenham U12's football team were delighted to return to the UK in possession of the 'Cupo De Futbol International' trophy after winning 6-0 against Spanish side Torrevieja United Juniors during their recent tour.

Team coach Alan Griffiths said: "The team played really well and looked the part in their new 'kit' thanks to our sponsors Oakland International. When we stepped out on to the Spanish pitch we looked good, felt good and played really well!"

Contract packing, storage and logistics firm, Redditch based Oakland International's husband and wife team, Managing Director and Director, Dean and Sallie Attwell, with winter approaching and the team's forthcoming Spanish tour insight, couldn't say no when asked to help them purchase new tracksuits and 'team-strip' polo shirts. Said Sallie: "How could we say no to the boys when they asked us as they had worked really hard to raise the money for the trip. Having the correct football gear is a must when on tour.

"Oakland staff were delighted to hear that the tour had gone so well for the boys and that they had returned home triumphant. Well done."

Feckenham Juniors U12's met the Torrevieja FC players prior to the Spanish League game against Horadada and were invited onto the pitch to enjoy a standing ovation in front of over 4000 supporters.
